

we feel that the consolidation of media into the hands of a few people or corporations is a very dangerous thing for this country. It creates an situation in which a very few number of people can control what we see and hear.

As you know, Sinclair Broadcasting is planning to air an anti-Kerry "documentary" just prior to the election. Sinclair was recently declared "unpatriotic" by Republican John McCain when it forced it's ABC affiliates not to air the Nightline show in which they read the names of the soldiers killed in action in Iraq and Afghanistan. This is not a valid or acceptable use of the public airways. Please use your power to fine Sinclair, or even better, prohibit them from performing this blatantly partisan act just prior to the elections. Thank you.
